Objective

Detail-oriented Computer Science student seeking a QA Intern position at Vrit Technologies to apply skills in **manual testing, API testing, and bug reporting** and contributing to high-quality software delivery.

Skills

- **Testing & QA:** Manual Testing, Test Case Design, Bug Reporting, Positive/Negative/Boundary/Edge/Usability Test Cases
 - **Tools:** Postman, Swagger, Jira, Git
 - **Programming:** JavaScript, TypeScript, SQL, React, NestJS
-

Projects & QA Practice

1. Login Page Testing (Manual & Bug Reporting)

- Designed structured test cases (positive, negative, boundary, usability).
- Reported multiple bugs with screenshots (e.g., incorrect toast messages).

2. API Testing – Todo App & JSONPlaceholder

- Tested CRUD operations (GET, POST, DELETE, PATCH) using Postman.
- Validated API responses against database records with SQL queries.

3. Test Case Documentation (Portfolio)

- Created PDF documents for test cases & bug reports with screenshots.
 - Stored reports and documentation in a GitHub repo.
-

Education

BSc. CSIT – Himalaya College of Engineering (2021–2025)

Status: Awaiting final results

Soft Skills

- Communication & Teamwork
- Attention to Detail
- Adaptability & Time Management
